Player Races

1. Human

Kin Powers (Pick 1 of the three)

- -**Quick to Fight (Legacy):** At the start of each battle, roll initiative twice and choose the result you want.
- **Push It:** Once per battle, after you roll a natural 1–5 on an attack or save, you can reroll the die and must use the second result.
- **Resourceful:** Once per arc (roughly every 4 battles), you can use any 1st-level power from a class you do not have as if it were your own.

2. Deep One Hybrid

Lineage from sunken cities; their flesh is hardening into slick, protective scales.

Kin Powers (Pick 1 of the three)

- **The Deep's Resilience (Legacy):** Once per battle, when you drop to 0 HP or below, you do not fall unconscious; instead, you immediately heal using a free recovery.
- **Slick Scales (Evasive Rework):** Once per battle, force an enemy that hits you to reroll the attack with a –2 penalty (–5 at Champion tier).
- **Profound Predation (Killer Instinct Rework):** After you rally in a battle, you deal +3 extra damage (+6 at 5th, +12 at 8th) for the rest of the battle.

3. The Star-Touched

Living relics of the Silent Flame; light emanates from their very marrow.

Kin Powers (Pick 1 of the three)

- **Curse of Chaos (Legacy):** Once per battle as a free action, when a nearby enemy rolls a natural 1–5 on an attack/save, turn it into a natural 1 and describe a narrative setback.
- **Deadly Trickster:** At the start of battle, if your initiative is odd, you gain a "trick die" to replace an ally or enemy's d20 roll later. If even, gain +2 to your first attack.
- **Halo of Light:** Gain a +2 bonus to all defenses until you are hit or the battle ends.

4. The Unfinished (Ghouls)

Biological leftovers from the Rending, existing in a state of constant decay.

Kin Powers (Pick 1 of the three)

- **Grave-Born Hunger (Legacy):** Once per battle, when you hit an enemy with a melee attack, you gain temporary hit points equal to your level + the Escalation Die.
- **Carrion Senses:** You ignore the penalties of Invisibility or Hidden on enemies within 5 feet. You also gain a +2 bonus to Background checks involving tracking via scent.
- **Release the Burden:** Once per battle, when an enemy hits you with a natural 16+, you may slough off a piece of your form. The attacker and all nearby enemies take damage equal to your level and are **Dazed** (save ends).

5. Dream-Walkers (Gnomes)

Refugees from a collapsed dream-dimension who see reality as a poorly made stage.

Kin Powers (Pick 1 of the three)

- **Phase Slip (Legacy):** Once per battle, when an attack hits you, roll a d20. On an 11+, the attack misses as you teleport to a nearby location.
- **Narrative Glitch:** Once per battle, after an enemy hits you but before damage is dealt, force them to reroll the attack and use the second result.
- **Illusionary Weight:** When you hit an enemy with a spell or ranged attack, you can choose to make them **Hampered** (save ends) instead of dealing damage.

6. The Tcho-Tcho

Small, efficient survivors who have become as alien as the horrors they hide from.

Kin Powers (Pick 1 of the three)

- **Ritual Precision (Legacy):** Whenever the Escalation Die is even, your crit range increases by 2. If you score a critical hit, you gain an extra Quick Action on your next turn.
- **Unseen Enforcer:** You gain a +2 bonus to Background checks involving stealth. Once per battle, if you start your turn unengaged, your first attack deals +1d6 damage (+2d6 at 5th; +3d6 at 8th).
- **Alien Physiology:** You gain a +2 racial bonus to PD and MD against Ongoing Damage or the **Confused** condition.

7. Degenerate Serpent Folk

Devolved descendants of the 11th Age, maintaining the steam-pipes of the Broken Throne.

Kin Powers (Pick 1 of the three)

- **Viper's Reflexes (Legacy):** Once per battle, when an enemy misses you with a melee attack, you can make a basic melee attack against them as a free action.
- **Venomous Spray:** Once per battle as a quick action: +[Level + Dex/Int] vs. PD; Target is **Stuck** and **Dazed** (save ends both).
- **Preter-Natural Camouflage:** Once per battle as a quick action, you are **Hidden** from non-adjacent enemies until the start of your next turn. Your next attack from this state deals +1d6 damage (+2d6 at 5th; +3d6 at 8th).

8. Fungoid Hatched

Biological anomalies lacking traditional souls; often treated as "renewable fuel."

Kin Powers (Pick 1 of the three)

- **Spore Cloud (Legacy):** Once per battle as a quick action, all nearby enemies take a penalty to attack rolls equal to the Escalation Die until the start of your next turn.
- **Mycelial Network:** Once per battle, when a nearby ally misses, use a reaction to let them reroll (adding your Wis/Con mod). If they hit, you both gain 5 temporary HP (10 THP at 5th; 20 THP at 8th).
- **Hatched Resilience:** You gain a +1 bonus to Physical Defense. Additionally, once per battle when you use a recovery to heal, you may automatically end one "save ends" condition currently affecting you.
