THE ABOMINATION (2E AUDIT & REWORKED EDITION)

“Avert your eyes! I am… a monster.”

1. CORE STATS (2E CALCULATIONS)

- **Initiative:** Dex mod + Level
- **Armor Class (Natural Armor):** 13 + **middle mod** of Con/Dex/Wis + Level
- **Physical Defense (PD):** 11 + **middle mod** of Str/Con/Dex + Level
- **Mental Defense (MD):** 10 + **middle mod** of Int/Wis/Cha + Level
- **Hit Points:** (8 + Con mod) x Level Multiplier (3/4/5/6/8/10/12/16/20/24)
- **Recoveries:** 8 (1d10 x Level + Con mod)

2. LEVEL PROGRESSION (THE "ALL-SIX" UPDATE)

- **Levels 4, 7, and 10:** Increase **ALL SIX** ability scores by +1 (replaces the 1E "pick three" rule).

4. REWORKED TALENT: ABOMINABLE FORM (2E COMPLIANT)

The original playtest allowed for static defense stacking. This rework shifts that power into 2E’s "active/conditional" style to prevent breaking the math curve.

- **Monstrous Resilience:** You do not use the stacking Temporary HP rules. If multiple maneuvers or traits grant THP, you only keep the highest value.

- **Hardened Plating (AC Rework):** Instead of a flat +2 to AC (which breaks 2E math), you gain a **+2 bonus to AC only while you are Staggered.** * *Adventurer Feat:* Once per battle, when an enemy hits you, you may reduce the damage by an amount equal to **2x your level** as your plating absorbs the blow.
- **Mutable Limbs (Maneuver Rework):** When you trigger a Flexible Maneuver that would deal "Half Damage" on a miss, it now deals **Damage equal to your Level + your Strength Modifier.**
- **Frightful Appearance (MD Rework):** Your base MD increases by +1. In addition, the first time each battle an enemy with fewer HP than you engages you, they are **Hampered** (can only use basic attacks) until the end of their next turn.

5. MANEUVER AUDIT (GLOBAL CHANGES)

- **Limit Maneuvers:** These only trigger on a **Natural 20**.
- **Healing Effects:** Any maneuver that allows "Regeneration" (like *Troll Blood*) now grants a Recovery-less heal only if you are currently **Staggered**.
- **Conditions:** Any maneuver that causes the **Weakened** condition now only lasts until the "End of your next turn" or requires a "Hard Save (16+)" to prevent infinite debuff loops.
